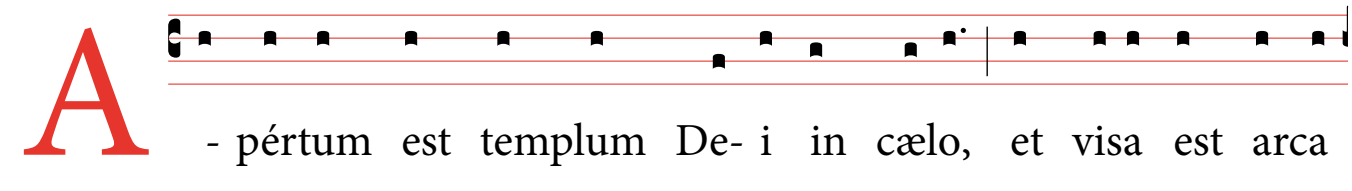
Lécti-o libri Apocalýpsis be-á-ti Io-ánnis apósto-li



A- pértum est templum De- i in cælo, et visa est arca

testaménti eius in templo eius. Et signum magnum appáru-it in cælo:

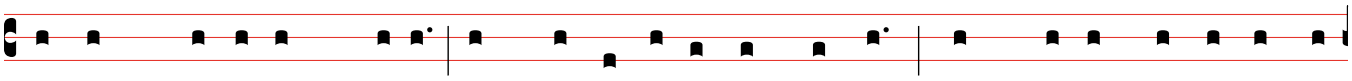
Mú- li- er amícta sole, et luna sub pédibus eius, et super caput eius

coróna stellárum du-ódecim; et in útero habens, et clamábat partúri-ens,

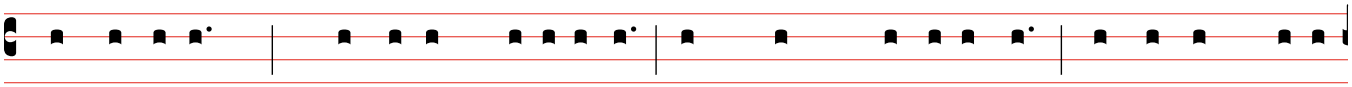
et cruci- abátur ut pári- at. Et visum est á- li- ud signum in cælo:

et ecce draco rufus magnus, habens cápi-ta septem et córnu-a decem,

et super cápi-ta su-a septem di-adémata; et cauda eius trahit térti-am

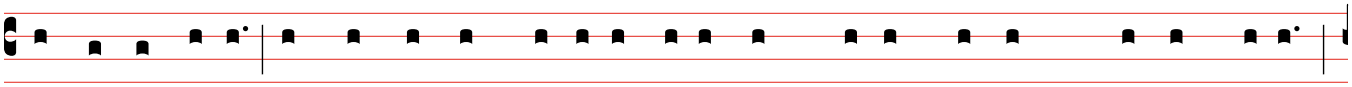


partem stellárum cæli, et mi-sit e-as in terram; et draco ste-tit ante

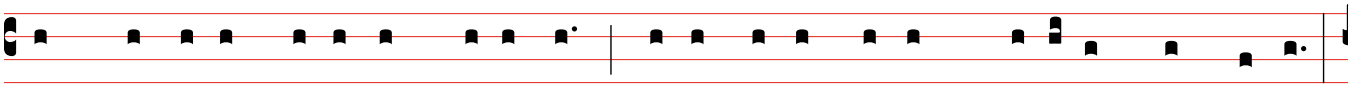


mu- lí- erem, quæ erat paritúra, ut, cum peperísset, fí- li- um eius

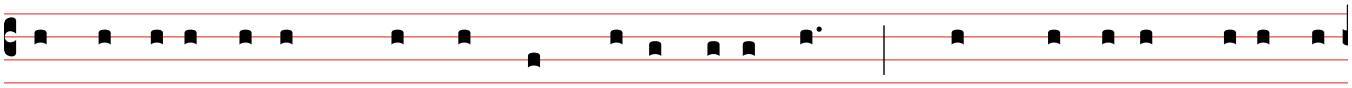
devoráret. Et péperit fí-li-um másculum, qui rectúrus est omnes gentes in



virga férre-a; et raptus est fí-li-us eius ad De-um et ad thronum eius;



et mú- li- er fugit in desértum, ubi habet locum parátum a De- o.



Et audívi vocem magnam in cælo dicéntem: « Nunc facta est salus et

virtus et regnum De-i nostri, et potéstas Christi eius ».
